Ocean Next 4.0 is a major new feature release from RTI Group, with the major highlight that Ocean now supports the new Mako System. Piranha, Cobia and Scatter Probe are also supported, as with previous Ocean versions.

Version 4.4.0.0 is a maintenance release with several bug fixes and enhancements.

New feature highlights

A meter and a milestone – Meet Mako!

Ocean 4.0 now supports the new Mako System, the most accurate, efficient and versatile X-ray meter ever. The next-generation multimodality X-ray meter has market-leading accuracy (± 1.5 % kVp uncertainty) thanks to innovative new detector technology. Centered around efficiency, Mako provides the ultimate no-fuss experience, simple setup in all X-ray applications, and fully wireless capability.

The modular, future-proof system design provides ultimate configuration flexibility, with the widest-ever application range for X-ray Quality Assurance testing.

Connectivity

Ocean Next need to be able to communicate over the following ports: 5512 (Localhost), 5513 (Localhost), 8443 (External) to properly function.

Firmware

Mako

Mako firmware v1.5.8 is included in this release.

Piranha

No new Piranha firmware, in this release. The lowest firmware that shall be used with this release of Ocean is 2021.9A / 4.3A.

Product Note
