

# Asus 10.1" Tablet PC 2-in-1

Congratulations to the purchase of your new Display unit for the Piranha, already loaded with the Ocean 2014 software.

## Notice about Battery lifetime

At delivery of the Tablet, the power button is configured in the following way:

- A short press on the button: Sleep mode
- A long press (>3 s) on the button: Power off (via dialogue)

If the Tablet is not to be used for the rest of the day it is recommended to power off the tablet by pressing and holding the button for about 3 sec to start the power off dialogue.
