## RTI Dose Probe Flexi Stand

# Quick Guide

Congratulations to your new RTI Dose Probe Flexi Stand.

The Flexi Stand is developed for use with RTI Dose Probe, for vertical and/or horizontal exposures. Not the least to use for scatter measurements.

### Setup

The flexibility of the stand allows positioning of the RTI dose probe in various angles. The stabilization rod allows positioning at a distance from the patient table.

Below two examples of the setup.

### Specifications and order information

Type	RTI Dose Probe Flexi Stand
Art. no.	9744010-00
