RTI Group Extended Warranty Program

The Extended Warranty program is available for RTI Piranha, Barracuda and Cobias purchased after Oct 31, 2009. This program extends the benefits of original 24-month factory warranty, in 24-month intervals, up to 10 years from the date of shipment of the product to the end user. The program is also available if you upgrade your Piranha to Black version. The following procedures and costs are associated with this exclusive RTI Extended Warranty program.

1. In order to take advantage of the Extended Warranty program, the user must return the RTI meter to the authorized RTI facility not later than 25 months from delivery from RTI factory, or 24 months after last full calibration.
2. Parts that are not calibrated or accessories to the system that are not returned to RTI are not qualified for the extended warranty.
3. If the warranty period has expired, the system is no longer qualified for the extended warranty Program.
4. If chosen, the charge to extend the warranty for an additional 24 months will be an additional 20% of the calibration cost for the meter. This will be a one-time charge added to the calibration cost for this meter and will extend its warranty for a period of 24 months.

For example: A new Piranha is shipped to its owner on January 1, 2017. The unit is due for calibration on January 1, 2019. The cost for calibration is €750. If the owner wants to purchase the extended warranty the unit would have to arrive at our facility no later than January 30, 2017. The total cost to calibrate and extend the warranty would be €900 - €750 for the calibration and an additional €150 (20% of the calibration cost) for the 2-year Warranty Extension.

5. Calibration costs are subject to change. Extended Warranty Program charges are based on the calibration costs being charged at the date RTI meters are returned to RTI for calibration or service.
6. This same process could be repeated 3 more times extending the warranty up to 10 years. Units older than 10 years old will no longer qualify for the Extended Warranty program. However, these can continue to be serviced and calibrated by RTI.

Warranty Terms

The conditions for prolonged warranty are according to pos 1-14 below with the following exceptions.

The prolonged warranty is not valid for handheld computers, net books or other computers delivered with the Product. Exception is also made for System Case, Ion chambers, phantoms and accessories not of RTI make. ii. For software it may be necessary to follow RTI upgrade programmes to get the prolonged warranty.
