

INDEPENDENT X-RAY  
QUALITY ASSURANCE

# RTI Reports 40% Growth in Product Sales for the First Half of 2024

Gothenburg, Sweden, July 16, 2024

RTI, a world-leading manufacturer of quality assurance (QA) solutions for diagnostic radiology, has reported a 40% increase in product sales for the first six months of 2024 compared to the same period in 2023.

This significant growth coincides with the launch of Mako, RTI's new premium solution for X-ray quality assurance. Mako is the most efficient and accurate meter available, offering the broadest application range in the market. It is a pioneering solution that revolutionizes workflow management while providing unparalleled plug-and-play simplicity.

Fredric Eliasson, VP of Sales, states: "We are experiencing significant sales growth across most regions. Our hardware solutions meet and surpass the high standards of an increasingly demanding industry. They are highly accurate and resilient, seamlessly integrating with Ocean Next, our comprehensive software solution for tablets, PCs, and the Cloud. The sales team and our partners have done a great job in bringing this message to the market."

RTI's Cloud solution, myRTI, features automatic backup of your entire Ocean Next database, synchronization across multiple devices, and more. The new Mako solution, released in December 2023, is now available in all markets worldwide. For more information, visit [Mako by RTI](#) or [RTI Mako Meter](#).

## About RTI

RTI is a world-leading manufacturer of quality assurance (QA) solutions for diagnostic radiology. In 1981, RTI invented the first X-ray QA systems and since then, innovation has been at the heart of our corporate philosophy. Our comprehensive independent QA solutions allow medical physicists and service engineers across the world to ensure that X-ray units in all modalities are optimized and safe. RTI's X-Ray QA hardware and software are used by hospitals, manufacturers of X-ray equipment, service companies and government authorities worldwide, across all different modalities, including R/F, dental, CT, mammography, interventional and surgery (C-arms). With design, manufacturing and calibration services carried out in Sweden, RTI has sales offices in America, Asia and Europe and is represented by up to 100 distributors worldwide.
