

RTI Partners with VacuTec for U.S. Market Expansion

Gothenburg, Sweden, 6 November 2024

RTI, a global leader in quality assurance solutions for diagnostic radiology, is pleased to announce a strategic collaboration with <u>VacuTec</u> to bring its innovative radiation measurement solutions to the North American market. Effective immediately, RTI will begin distributing VacuTec's products across the United States, enhancing the availability of advanced solutions for patient dose monitoring and optimization.

The partnership with VacuTec will allow RTI to expand its portfolio with specialized devices, including VacuDAP units and Automatic Exposure Control (AEC) chambers, designed to be compatible with most diagnostic X-ray systems. Through this collaboration, RTI and VacuTec will combine their technical expertise and resources to support the needs of North American healthcare providers, ensuring top-tier service and product accessibility.

Steve Holmes, Vice President of Sales at RTI Group North America, commented: "We have established a strong foundation in the North American market. By integrating VacuTec's products, we see great opportunities to drive growth, improve cross-selling, and enhance our service offerings. This collaboration is a win-win for both RTI and VacuTec, and I am excited about the possibilities it brings for our clients."

About RTI

RTI is a world-leading manufacturer of quality assurance (QA) solutions for diagnostic radiology. In 1981, RTI invented the first X-ray QA systems and since then, innovation has been at the heart of our corporate philosophy. Our comprehensive independent QA solutions allow medical physicists and service engineers across the world to ensure that X-ray units in all modalities are optimized and safe. RTI's X-Ray QA hardware and software are used by hospitals, manufacturers of X-ray equipment, service companies and government authorities worldwide, across all different modalities, including R/F, dental, CT, mammography, interventional and surgery (C-arms). With design, manufacturing and calibration services carried out in Sweden, RTI has sales offices in America, Asia and Europe and is represented by up to 100 distributors worldwide.
