

## RTI celebrates record-breaking year

Gothenburg, Sweden, 12 March, 2025

RTI Group, a global leader in Quality Assurance (QA) of X-ray imaging, proudly announces a landmark year marked by exceptional financial performance, significant market expansion, and strategic innovations. The company exceeded its revenue target, achieving over 125 million SEK in 2024, representing a remarkable growth of more than 20 percent compared to the previous year.

## Highlights 2024

- **Record sales growth:** RTI achieved its highest financial performance to date, surpassing the 125 million SEK revenue milestone in December 2024, significantly exceeding its financial goals.
- **Mako launch:** Successful mass production and market launch of Mako, the world's most modern and advanced X-ray Quality Assurance system, driving substantial revenue and gaining strong market adoption across key regions.
- **Cobia sales:** Strong performance of the Cobia product line, with high sales volumes contributing significantly to revenue growth.
- **Scatter Probe demand:** Exceptional demand for the Scatter Probe, showcasing RTI's ability to meet specific market needs with advanced solutions.
- **myRTI growth:** Strong adoption of myRTI, RTI's industry-leading cloud solution for X-ray Quality Assurance, with over 4,000 active users.
- **Global distributor meeting:** RTI Group hosted a successful Global Distributor Meeting in Sweden, welcoming 50 distributors from around the world to connect, exchange insights, and deepen knowledge of RTI solutions.
- **Sales contracts:** Secured major sales contracts with leading industry players, demonstrating RTI's strong market position.
- **Global expansion:** Expanded partnerships and customer base with significant sales to international healthcare facilities throughout the USA, Europe, and the Asia-Pacific region.
- Industry recognition: Achieved recognition at the RSNA conference in Chicago as a Standout Exhibit among nearly 725 exhibitors, reinforcing RTI's industry leadership and brand visibility.

**CEO Elin Sahlberg says:** "2024 was a remarkable year for RTI. We made significant strides toward becoming the market leader by driving innovation in both hardware and software, highlighted by the successful launch of Mako and enhancements to our cloud solution. Our strong sales growth and expanding market share across all regions demonstrate the effectiveness of our strategy. Our focus on delivering comprehensive solutions, maintaining a strong pace of innovation, and nurturing long-term relationships with customers and partners has truly paid off. We are excited to build on this momentum and continue our growth in 2025."

## About RTI

RTI is a world-leading manufacturer of quality assurance (QA) solutions for diagnostic radiology. In 1981, RTI invented the first X-ray QA systems and since then, innovation has been at the heart of our corporate philosophy. Our comprehensive independent QA solutions allow medical physicists and service engineers across the world to ensure that X-ray units in all modalities are optimized and safe. RTI's X-Ray QA hardware and software are used by hospitals, manufacturers of X-ray equipment, service companies and government authorities worldwide, across all different modalities, including R/F, dental, CT, mammography, interventional and surgery (C-arms). With design, manufacturing and calibration services carried out in Sweden, RTI has sales offices in America, Asia and Europe and is represented by up to 100 distributors worldwide.
